I know that these things don't come easily

But I can't see two feet in front of me.

Wherever I go from here

I want to be lifted up so high

That I can soar over the seas

And be completely

Chorus:

Free me from these chains that

Hold me down so I can't breathe

The words I need to hear

So badly, so please come and Free me

Verse:

Slowly pressing on towards the plans you have for me

Feeling every step along the way beneath my feet

Swallowed by the clouds of doubt

It's hard to see through all the haze

Follow the light to lead the way

And be completely

(Chorus)

And when you catch your wings to soar above
everything

Don't let yourself fall down

Fly as high as you can fly

Fly until you reach the sky

And never stop until you know that you're completely
