"To Reach A Star"

Visit "[To Reach A Star](#)" on MotoLyrics.com

Things seem impossible
The way they are to me
Going through life
Trying not to miss a beat
As I look at the sky for my peace
I see my dreams appear
Though clouded they may be
They are so very clear

Chorus:

Try to tell me I can't reach a star
Seeing them so close and yet so far
One day I'll get there just wait and see
There is a star waiting for me

Waiting for the heavens
For as long as it may take
Dreaming of the places I'll go
And the creations I will make
All I wish upon a star
To shine with them forever
Watching over all the world
To complete my own endeavor
