Concepts of earth ? the christian darkthrone
But the tortured souls ? shall transist
The great fuck of belial
That received the 37?c
Continued controlled synopsis of mind
Carefully observing the first steps
(Transcendental horns penetrate ? knowledge pleads
wisdom seeds
Eternal combihall, souls of the ? size of a whilst wither
whilst feathery...)
Earth is as alien as any star in the sky
So, can you breathe in satan's land?
Immensly furzing all heavens...
At last we bring you your autumn!
