"Thank You"

Visit "[Thank You](#)" on MotoLyrics.com

You kept the fires burning when I swore
The flame had long gone out
You took me by the hand when I stumbled
Through the shadows of doubt
When I was lost and found
And somewhere in between
You were always there dusting off my dreams

Chorus:

So I wanna thank you for the candle in the window
For heart light that always shines
And always leads me home
For the solid rock foundation
For your faith and inspiration
There's no way I can express my gratitude
Still, I thank you

It's true, I won't deny that we've shared
Too many long goodbyes
But you're always right there in my heart
And I pray a part of me remains behind
Oh, it's true they're just two words and nothing but
And it seems nobody says them near enough

Chorus:

So I wanna thank you for the candle in the window
For the heart light that always shines
And always leads me home
For the solid rock foundation
For your faith and inspiration
There's no way I can express my gratitude
But still, I thank you

For the heart light that always shines
That always leads me home
For your solid rock foundation
For your faith and inspiration
There's no way I can express gratitude
There's no way I can express gratitude
Still, I thank you
I thank you
