Before I fall to pieces
You need to listen closely
I filled this in
And it's tearing us both apart
Do you want this
Do you need this
Cuz I need you
And I'm sorry
Is it too late to regret it
Can we just say lets forget it

Forgive my laps in judgment
You know that I'm not like that
But is it really like you to just walk away
Do you want this
Do you need this
Cuz I need you
And I'm sorry
Is it too late to regret it
Can we just say lets forget it

And though I tried to stop it we can't let go
I never wanted to hurt you and you should know
I did it all for us
I thought you'd understand
I did it all for us

And now it's growing colder
With questions still unanswered
It's getting harder to keep you within my reach
Do you want this
Do you need this
Cuz I need you
And I'm sorry
Is it too late to regret it
Can we just say lets forget

And though I tried to stop it we can't let go
I never wanted to hurt you
And you should know
I did it all for us

I thought you'd understand
I did it all for us

I never wanted to hurt you
And you should know
I did it all for us
I thought you'd understand
I did it all for us

I'll make it up to you
I just don't know how
I'll make it up to you
