"Heart and home"

How can I help you focus

When all you do is choke us?

Try looking for me and wishing for me

And kiss me softer than the rest

How can I help you dream

When all you do is scream?

If I'm not allowed to be above the crowd

I don't wanna be your guest

A one in a million smile

A silent number that I can't dial

But eyes so blue it's like falling through

An evening in the west

What can I do to sway you?

Drop to my knees and pray you

Stop breathing the fumes of those other grooms

Then we really will be blessed

Ba, ba, ba there's ice around your heart

My home
