"Be The Light"

Visit "[Be The Light](#)" on MotoLyrics.com

We're in a day, we're in a time
We're in a world that's lost its mind.
Where is our soul? Where is our heart?
We each need to pray to find a way,
There is a way out of the dark

Chorus:

Be the light, be the light
Let the flame that burns inside of you
change somebody's life
Be the light, be the light
You may be the only candle in the night
But you be the light

When you are loved,
When you are whole.
Someone will see and they will believe.
Like a fire so strong, it will catch on

Chorus:

Be the light, be the light
Let the flame that burns inside of you,
change somebody's life.
Be the light, be the light
You may be the only candle in the night
But you be the light

Shine, shine, show the way(show the way)
Open your heart (open your heart)
Don't be afraid (don't be afraid)

Chorus:

Be the light, be the light
Let the flame that burns inside of you,
change somebody's life.
Be the light, be the light.
You may be the only candle in the night,
But you be the light
