"Never Say Never"

Its been four years and things have changed
But through it all we still remain
From the start you never gave us a chance
We were only told it will never last

Never say Never
This is forever

Even when we found God you never trusted us
You said we're too young and don't have enough
Where you going without your college degree
Without your million dollars without your American
Dream

I never ask you for anything but a little support
And to listen to me, I know I can't be what you want me
to be because I got to do what's right and I've got to be
me
