you want to send me off to war
to fight and fight and fight some more
will i fight for this country?
take vengeance on the enemy
i hear the people saying "american pride"
and i see the hatred in their eyes
now i feel the war is lost
who will die and at what cost?

dont brainwash me
dont brainwash me
try to kill the enemy

now america is on the attack
we want revenge well pay them back
my conviction wont be compromised
war is murder in disguise
now big brothers on my back
saying the enemy needs to die
now i feel the war is lost
who will die and at what cost?

dont brainwash me
dont brainwash me
try to kill the enemy

ill die
youll die
well all die
whos gonna die?

you want to send me off to war
i wont fight in your unholy war
my conviction wont be compromised
murder, corruption
the sin you just cant hide
