We want the truth!

Another day passes by and it all seems the same  
The search for truth continues but only questions remain  
The lost search with hopelessness lies are what they're  
fed

Shoved down their throats till they're all dead  
I'm sick of the corruption, I'm sick of the lies  
I'm not gonna take it, I'll fight till I die  
And you can't tell me it won't change a thing  
'cause I'm not living for you or society  
And we won't sit back and take your crap  
Because we won't be stabbed in the back  
So just piss off and keep your mouth shut  
We won't believe your lies no matter what

We already see through you and your pathetic scam  
And you'll never change me or who I am

And we'll never give up or draw a truce  
'cause we'll never stop living for the truth  
We want the truth

Still time passes by more lies are spread  
Working their way into our heads  
So sick and twisted it makes me sick  
Feeding an addiction that I just can't kick  
When will we be freed from this trap we're in  
And how long till this suffocation ends  
This choking feeling that never goes away  
The feeling of death getting closer every day
