Get out of my way and leave my house
Sugar and salt, believe in myself

I wait forty days, thirty nights
I am amazed

Get out of my way, deface this sound
Get out of my way, I'm in love with myself

Assume my shape and find my sense
I am amazed, I am amazed

Into my waiting, I will smile
Assume my shape, I'm in love with myself, myself

My waiting arms surely must be standing here
I'm in love with myself

I am a man, believe in myself
Which way safely must be standing here
I'm in love with myself

Get out of my way and leave my house
I am a man, I heard

I am a man, spent forty days, thirty nights
Forty days, thirty nights
Something's wrong, I hear myself
