"Run Me Away"

Visit "[Run Me Away](#)" on MotoLyrics.com

Some men might need lots of things
Cars and a big ole' house
But baby what you get is what you see
And all I need's right now

So if you swing for the fences
It's good to let go
Come baby ride
And honey let's roll

Run me away from this town
Steal me against my will
Push that peddle down
Take my soul to
Places it's never been
Oh baby run me away

Some girls might have everything
Cars and a big ole house
But baby what you got is what I need
It's everything I'm talking about

So if you swing for the fences
It's good to let go
Come baby ride
And honey let's roll

Run me away from this town
Steal me against my will
Push that peddle down
Take my soul to
Places it's never been

Run me away from this town
Just let the stereo play
Til the end of the headlights
Make their escape to
The start of a brand new day
Oh baby run me

Away cause I've been here too long

The same guitar and the same old song
And all the miles we've left to go
I can't do it alone
No I can't do it alone

Run me away from this town
Steal me against my will
Push that peddle down
Take my soul to
Places it's never been

Run me away from this town
Just let the stereo play
Til the end of the headlights
Make their escape to
The start of a brand new day

Run me away from this town
Steal me against my will
Push that peddle down
Take my soul to
Places it's never been
Oh baby run me away
