Oooooh, oooooh (oooooh, ooooooh)
I can't believe your here with me
Now it seems my worlds complete
And i never want this moment to end
I close my eyes and still i see
My dreams become reality
And now I no how it fills to be in love
I prayed so many nights that you would come my way
An angle from above to light my darkest day
I think its time for you to hear these lines
'Cos there's something I want to say
I finally found what i've been looking for
And now you know Im gonna love you more
Hold me tight 'cos it's always been you
(It's always been you)
To think that you were always there (always there)
To be my friend and wipe away my tears
Now it's clear that it's always been you
Sometimes you don't expect that friends
Can become lovers in the end
Only god knows what the future will bring
So hold me close don't let me go
'Cos this is love boy, don't you know?
And were gonna be together for eternity
I prayed so many nights that you would come my way
An angle from above to light my darkest day
A love so strong it can't be wrong
It's with you that I belong
I finally found what I've been looking for (finally found)
And now you know Im gonna love you more
Hold me tight 'cos it's always been you
(It's always been you)
To think that you were always there (always there)
To be my friend and wipe away my tears
Now it's clear that it's always been you (you)
(This time) this time
Im gonna make sure it turns out right
I wanna be your everything and by your side
For the rest of my life
(This love)
This love feels the way that love should be

Look in my eyes and realise there's no disguise
'Cos Im in love with you
I finally found what I've been looking for
And now you know Im gonna love you more
Hold me tight 'cos it's always been you
To think that you were always there (you were always
there)
To be my friend and wipe away my tears (wipe away my
tears)
Now it's clear that it's always been you (it's always been
you)
I finally found what I've been looking for (I finally
found)
And now I know Im gonna love you more
Hold (oh) me tight 'cos it's always been you
(It's always been you)
To think that you were always there (don't you know?)
To be my friend and wipe away my tears (oh baby)
Now it's clear that it's always been you
(Always been you, yeah, yeah)
I finally found what I've been looking for (I finally found
it)
And now you know Im gonna love you more
(Yeah, I finally found it)
Hold me tight 'cos it's always been you
(It's always been you ooh)
To think that you were always there (what I been
looking for)
To be my friend and wipe away my tears
(What I been looking for)
Now it's clear that it's always been you
(Always, always)
