When the thunder roll  
Mi have a worthy shelter  
When the fire blaze  
We have a ball fi the water

It's time to pray, I tell you, pray  
No season, pray, I tell you, pray  
Prayer warriors, pray, I tell you, pray  
I said pray, I tell you, pray

(Chorus)  
When the thunder roll (What am I going do?)  
Mi have a worthy shelter  
When the fire blaze (What am I going say?)  
We have a bowl fi di water  
(X2)

A man must not live with his brother, God has given  
you a significant other  
For this reason, leave father, mother, cling to your wife  
who will make you gladder  
In my heart it makes me sadder, by nature she should  
be the one your other  
Man-to-man, only makes me madder, mindly given out  
like Sodomon to Mamre

Chorus

Ladies goin' around, you call them gold-diggers, thirty-  
six, twenty-four, thirty-six figures  
She steal your heart, you give me alibers, then tell a  
friend she abused that nigger  
Pray that you will forgive her, before you get mad and  
you pull that trigger  
What a good wife then ask the wine-giver, he never  
fail, he always delivers  
Feeling tall jerk off in the river, feeling temptation? Pull  
up the zipper!  
Rebuke Satan, God your perabiter, submit to Christ  
forever and ever

## Chorus

Don't turn in the glam and the glitter, abstain from the  
life of the life of Marley and Vitter  
Well if things only make your heart bitter, stay sober,  
don't you get drunk with liquor  
This is for the humble, not for whose fitter, you walk in  
sin, it only make you sicker  
Run to Christ, he will make you fitter, repent of your  
sins, rebuke Lucifer

## Chorus

I know sometimes my heart it makes stressing,  
because I'm against your thief and your theifing  
Respect your wife, no don't arouse carousing, don't  
stray because she's God's blessing  
Speak overt 'cuz that's what I'm blessing, I know it's the  
truth, the fact I'm not guessing  
Speak a draw when I put on the dressing, feel the  
conviction, start the confessing!

## Chorus (X2)
