"Just a lie"

I spilled my guts / dont'y you know I'd "KILL FOR YOU" /
through years and broken hearts / I bled it true / yet
every drop of faith / becomes a sea of pain / the storm
on the view / a darkness over me / dead from the onset
/ and I can't break free / I spilled my guts / did you think
I'd "CRY FOR YOU?" / through years and broken hearts /
I bled it true / TRUE! / TRUE! / her hearts not true / we're
lovers, fighters / knives in our hand / knives in out
backs / stabbing till the end / it's all just a lie / and
you're / just a lie / love has no meaning / when there's
nothing left inside.
