"Violent and gray"

Everyday is violent and gray
everyday spells tragedy
down on life
down on luck
down on love
don't give a fuck
tonight we'll scream
let's tear it down
suffer tomorrow
just not now
fists in the air
something to say
spray it on the walls
that we fucking hate
tonight . tonight
we're ready fight
tonight . tonight
we're ready to die
today is violent and gray
everyday spells tragedy
life ends a day at a time
never sitting back
always cross the line
drive a stake
through the heart
let them know we'll tear it apart
tonight we're together
tonight we'll fight
for what we want
we're ready to die.
