reverberate beyond control and i can't hold on - as it
beats out of sync - once too many - rip free from these
chains - killing hope day by day making dreams out of
reach - won't give into dead stop procrastination -
gears spin fast on progression - oiled by the blood i
shed everyday it breaks me down - everyday it pulls
apart - and still - i hold on - as it beats out of sync see it
bleeding me? see it killing me? - sugary thoughts of
triumph - laced with bitter attempts i tried to warn you -
yet you bleed like me
