I was born with a guitar in my hand.  
Mamma knew I'd be a ramblin' man.  
I've played every honky tonk on Broadway.  
Still ol' Hank, he doesn't know my name.

No, I may never make the cover of The Stone.  
But, every word I sing I can call my own.

I just wanna sing my songs, play my guitar.  
Nobody ever thought I'd make it this far.  
If I did it for the money, then I'd be broke.  
Music is what makes me whole.

I've found so-called love come 3:15.  
But, this life ain't what it seems.  
It's been a crazy road to this stage.  
And in the book of fame I ain't turned a page.

No, I may never make the cover of The Stone.  
But, every word I sing I can call my own.

I just wanna sing my songs, play my guitar.  
Nobody ever thought I'd make it this far.  
If I did it for the money, then I'd be broke.  
Music is what makes me whole - c'mon

What makes me whole...  
Saves my soul...
