I'm walking down a dusty road to redemption  
A clear path mapped out on a piece of linen  
I'm living on a pay of rusted dimes  
With a timer counting my time  
Who are you to tell me when to go or to stop?  
It's my choice to climb from the bottom to the top  
Everything I'll ever need is on my back

[Chorus x2]

I'm not going  
Down, down, down, down (x2)  
Fly away red bird  
Fly away red bird

[Bridge x2]

Not going down, down, down, down (x2)  
Not going down (x2)  
Flying away

I'm flying away, I'm flying away  
With the red birds, oh the red birds  
Flying away, I'm flying away  
Flying, Flying, I'm going  
Down, down, down, down (x2)  
I'm flying away
