Infested punx!

Sounds from the street
It's our fucking voice
We don't fucking care
We will make some noize
Violence and anger
Boil inside of me
We don't fucking care
You will hear us all

It's our voice! it's our noize!
Infested punx we don't give a fuck!
This is our town
A fucked up place to be
We will make the best of it
Support our local scene
We are the same heart
We are the same noise
Hardcore and punk
Is the same fucking voice

It's our voice! it's our noize!
Infested punx we don't give a fuck!

Sounds from the street
It's our fucking voice
We don't fucking care
We will make some noize
Violence and anger
Boil inside of me
We don't fucking care
You will hear us all

It's our voice! it's our noize!
Infested punx we don't give a fuck!
