How could I know by Jasper Erkens
I used to care, about you and I
I used to care about wrong or right
But, honestly, you're still on my mind
And this love disease, eats me alive
I can tell, by the look in your eyes
You're over me, you're over me
How was I, supposed to know
I'd feel so lost
I'd be so lost

How could I know
My love for you would grow
How could I know
I can't make it on my own
How could I know
I would be lost and all alone
How could I know...

Why do I care about you and I
'cause love ain't endless, love will die
Any place, or anytime
Please let us reconcile

'Cause time will make it harder
And no one will be there

How could I know
My love for you would grow
How could I know
I can't make it on my own
How could I know
I would be lost and all alone
How could I know...

What more do you need
I'm down on my knees
What is wrong?
I'll change I'll promise!
How could I know
