

The Workhorse Movement

"Cosmic Highway"

Visit "[Cosmic Highway](#)" on MotoLyrics.com

I feel the air is gone
I'm breathing my way
Past the end I'm gone
Out on the run

Somber waves of light
Now they caress me
The psyche taking flight
Release the load

Out on the highway
She took the high road
The skyway
She took the high road

The cosmic high road
Ship is going down
I've lost some functions
The child is running out

I'm on the run
Years that I have
Been under construction
Some changes I've allowed
I think I'm done

Out on the highway
She took the high road
The skyway
She took the high road

The cosmic high road
