It's an omen!

It's an omen,  
Now!

Automation

Now!

Now!  
The writings on the wall  
It won't go away  
It's an omen  
You just run out of automation  
[3x]  
Automation, automation, automation...  
It's an omen!  
-men-men-men-men (x?)

It's an omen,  
Now!

Now!  
The writings on the wall  
It won't go away  
It's an omen  
You just run out of automation  
Now!

It's an omen!  
Automation

It won't go away

It's an omen!

It's an omen!
