### "Sound Of Goodbye"

I'm sitting here easing my mind  
One last look around  
One look to remind  
Before I resign, yeah

Now I can sleep  
Now I can breathe  
Mind made up I'm setting you free  
Grabbing my keys, yeah

I'm gonna step into my car  
I'm just gonna drive  
Got no place to see  
No need to imply  
Do you hear the sound of goodbye  
No slamming doors  
No reasons why  
Not gonna explain  
Not gonna justify  
Do you hear the sound of goodbye

I won't miss you  
My dandelion baby  
I loved to kiss you  
But you made me crazy  
With your lies, yeah

I'll leave on a light  
I'll leave you some things  
To remind you of us  
To remind you of me  
Just no room to plead, yeah
