Verse 1: [Sonny Spoon]

Somebody tell me what can a hustler do?

Trying to come up on a buck or two

Got words I wanna spit to you

But with no doe ain't never gone make it through

So I played the game, in the rain, felt the pain, moving
things

Been locked in chains

But when I finally rose up I still went against the grain

Tell 'em what's my name

(Spoony) You better know that

And best believe that my crew gone blow cause we
don't hold back

Watching my doe stack

Becoz I'm out here pushing weight

Who want platinum plates, better forget the fakes,

We got to do everything it takes

You know some gone hate

But can't stop 'em now

Mad we dropping hot

Take a look I got CMD and Q with me

Y'all really better ryde or dye

Cause we playing the clown like 740's

Get rich while macking shawty's
If it ain't bout no money
I suggest you don't even call me
Better yet when I drive pass
Some of y'all just mad cause ya don't know me
That's why you jockin' me and my status
You wanna get grown I'ma tap that ass
Sing it bring it, playa cause I don't fuck around
If you come short with my papers you gone have to tear
it down

Verse 2: CMD

See bout thirteen years ago I tried to get off in this
game
By the time I'm threw
Coming through, y'all niggas gone know my name
Be like you the man with them pretty vans sitting on
them thangs
Used to live in Pleasant Hill and damn what's his name?
Be like yeah that's me, CMD
And I'm calling my daddy
All these people keep on asking me, but how did you
manage
To be so broke
With so much doubt, and you never lost sight
I told 'em I worked extra hard, chasing dreams and
pray every night
I'm finna take this silver off my neck and turn it in to
platinum
I'm finna go from flat broke to letting the doe stack
Sometimes I wanna quit y'all with all this struggling
But then I think man, naw'll just keep on hustling
Cause all I wanna do is live my life
If I ain't living right
Then I'ma pay the price
I don't want yo advice
I'ma sacrifice
Until I see the eternal light
Yep, but know let me and Spoon get together!
See we down for whatever
No matter the weather
Staying away from the rain

Keep on driving through the storm
We keep on hittin'-y'all like this
How the hell we gone go wrong
So anybody don't wanna see me get mine
Raise on up catch a fire
Matter fact tear it down
