"Echoes"

Send out a sound for the wood between the worlds
Gently repeat as the boundaries start to swirl
Keep to the call that is twice now liminal
It's not the same where the trails lead to the outer
regions

Echoes from the otherworld turn horizons into endless
ever present

Echoes / Many otherworlds true horizon start to turn
Numberless names with the force of the ninth wave
Keep to the call that's repeated in the outer regions
Echoes from the otherworld turn the horizon into
endless ever present

Echoes / Many otherworlds true horizon makes the
endless ever

Present echoes into otherworlds true horizons into the
endless ever

Present echoes / Many otherworlds true horizon takes a
turn

Echoes reflect and change they serenade
