### "Flashover"

Visit "[Flashover](#)" on MotoLyrics.com

Myriads of silver discs  
Signals have been noticed  
Out on the drift

Here comes the flashover  
From our new neighbor  
Here comes the flashover  
Behold new colors

Messages, fresh images  
The over mind  
Has noticed another shift

Never seen before  
Others bring new dawns  
Colored grays are on display  
The waiting is no more

Never seen before  
Others bring new dawns  
Imagination's opening  
Inviting us on board

Here comes the flashover

Myriads of silver discs  
The over mind  
Has signaled another lift

Dimensions of time have come undone  
Now we have become so unalone

Migration, space, extensions, differences  
Information increases becoming  
What the mystery is
