Those eyes

Those eyes

Those eyes

Those eyes were sharp like sharpest knife.

When I see you and I'm going away

You help me get to the things that you will do

And say when I see you and I'm going away

You help me get to the things that you will do

And say...

Those eyes

Those eyes

Those eyes

Those eyes were sharp like sharpest knife.

When I see you and I'm going away

You help me get to the things that you will do

And say when I see you and I'm going away

You help me get to the things that you will do

And say...

And I feel

And I feel

And I feel

Like an insect

(and i feel)

You make me feel (and i feel)

You make me feel (and i feel)

Like an insect

Leads to no nowhere,

Coats on your chair...

Like an insect
