you never be real cuz the way you act an yes you stay
attached to a life
of fiction pictionary take a guess of a life you try
but you always stress
becasue you watch your steps cuz your just might
wreak if you make
the wrong turn. scared what they think scared what
they know you
gotta stay plasic so the real never show yeah â€¦

a smile on your face but you scared in your heart
becasue your insides
be straight tearing you apart you dont like your beauty ,
you dont like your grace, you dont like your face,
you dont like your body, you dont like your mommy,
you dont like your
daddy cuz your daddy hit your mommy an your
mommy just cry but she
never ever leave becasue she to weak to try

the pain inside you hide behind mascara eyes an you
seem to find the
same type of vibe your mom be on so you walk the
same path date a
lame ass that beats you right he dont treat you right
you dont see
what right you dont see the light you dont see what life
have to
offer so you live with this slaughter on your heart
pardon my
remarks but it is what it is you think that make up hides
that shit?
i guess you another made up lieing bitch

she pose as a barbie but can hardly match an then she
party so hardy
that the drugs attach an then she went so far she aint
coming back
(naw she aint coming back) i bet you wounder what it is
becasue i wounder
what it was i bet it never really ever started with the

drugs
insecurities breaking in like burglaries surgeries
needed to remove
that shit, mommy didnt like her daddy didnt need her
so the neighbor
eat her up an had her coming in the crib 6 years old
she didnt
understand the world fucked up when it aint in your
hands she gets a
fix every night with a needle in her arm she dont see
the wrong she
dont see the harm she tricking for her fix filling up with
dicks
in a ignorant bliss piss your life away let it go down the
drain
that make up on your face will some day fade she
always wanted love
since the day she was young her momma was like
"your dumb"
her daddys like "shes young" it started with a kiss then
it went to
a feel then to a rub then her pants came off then she
started with
a rubber but she didnt like the rubber becasue she
didnt like the
way they feel then she started feeling ill but she knew
she wasnt
pregnant an then she thought for one second dam
fucking with those
cats that she aint even know her friends like " hes cool"
but she aint really know now she infected lost in
direction lookin
for affection but she'll never find it so she goes home
to a
place called hell an it aint bin well since she was all
little
becasue her daddy broke her walls an he still even tap
alcohol
an crack had his ass off track now hes infected lost in
direction
lookin for affection he got it from her mom now she
infected lost
in direction she ran the intersection an died at the
wreck kid â€¦.
she died at the wreck kid â€¦. an she never even knew
