So, they threw you off
But you got back up trying again.
So, against the odds
Turned your face to the wind.
Always keepin' the faith
That's the only way we get through
Day by day

It's just the way it goes
We're the dreaming people
The way we put our hopes
Through the eye of a needle
Oh, oh oh
Through the eye of a needle
Oh, oh oh

We're the dreaming people
We're the dreaming people

So i know i don't know know it all
I am lost sometimes but that's alright
So I know I'm learning how to fall
That's the only way
You're seeing me fly
Keep on keepin' the faith
That's the only way I get through
Day by day

It's just the way it goes
We're the dreaming people
The way we put our hopes
through the eye of a needle
oh, oh oh
Through the eye of a needle
oh, oh oh
We're the dreaming people

The way we put our hopes
We're the dreaming people
It's just the way it goes
The way it goes yeah

The way we put our hopes
We're the dreaming people

We're the dreaming people

We're the dreaming people
The way we put our hopes
oh, oh oh
Through the eye of a needle
oh, oh oh

We're the dreaming people
We're the dreaming people

yeah yeah yeah

We're the dreaming people
