

## **The Young Veins "Take A Vacation!"**

Visit "[Take A Vacation!](#)" on MotoLyrics.com

I need to take a vacation  
If this is settling down  
Then why aren't you here?  
I want a big celebration  
The night we get back in town  
And I hope you're all there

But leave the waves at the ocean  
Keep them all in a picture  
And leave the cold where we came from  
Our loneliness will keep us warm  
We're going going going very far

I need to take a vacation  
If this is settling down  
Then Why aren't you here?  
I want a big celebration  
The night we get back in town  
And I hope you're all there  
Leave the past out to pasture  
And take the days as they come  
And leave the sand in a suitcase  
So we don't forget the fun  
We're going going going very far

I need to take a vacation  
If this is settling down  
Then Why aren't you here?  
I want a big celebration  
The night we get back in town  
And I hope you're all there  
And I hope you're all there  
And I hope you're all there
