Is "young" a word for "dumb"?
A word for "fun"?
We have the time of our lives
Every night like it's our job
To lose our minds
Every night
But if I were to die tonight
Would you cry or deny
My place in your life?
I'm aware that you're scared
Of my heart
But it's here
Is "young" a word for "dumb"?
A word for "fun"?
We have the time of our lives
Every night like it's our job
To lose our minds
Every night is the same
Go to sleep without blame
And the shame is enough to separate us
But we can't help ourselves
Were in love
And it really hurts when it's wrong
Is "young" a word for "dumb"?
A word for "fun"?
We have the time of our lives
Every night
Like it's our job to lose our minds
And it's every night
We have the time
Like it's our job
To lose our minds
Every night.
