Deep Silent Night

by Koo Koo Boy

lyrics and music by Scott Coblio

Have you ever wondered what the feeling is

To kill someone you love

But someone you hate?

And it's all there together in the quiet night

In the silent, silent night

You go to church and you pray to God

And you're so glad it's done

Then it's run to bed before the morning

Hiding from the sun

And then it's too late, but

You wish you could change it

You wish you were dreaming

You wish you were dead

And Christmas carols

Sung by children

Fill your weary head
