Pop Friends

by Koo Koo Boy

lyrics and music by Scott Coblio

Johnny Johnny, lend me your hair

I do believe they stare at your hair

Your coat would do as well...

And there's Petrouchka, in my dreams

Not very trusting, it doesn't seem

I know just how she feels...

Hey Debbie Ann, from Miami

I think you've got the doubly whammy

But your face will make you free

Your face will make you free

And all my other wall bound faces

Live in my room, their place is

Where I keep my half-tone friends
