You and us make it reverse
You and us make it reverse
You and us make it reverse
We just have to pause and rehearse
You and us make it reverse
You and us make it reverse

Two and a half or twice that
since you went away
These bitches bring us back to the same thing
We missed at the time we stopped at the wrong sign
Shake shake while we're swallowed by this new heat
We clap with the same choir

You and us make it reverse
You and us make it reverse
You and us make it reverse
We just have to pause and rehearse
You and us make it reverse
You and us make it reverse

When the floor sinks we will stand up
When the ceiling shakes lets get the fuck out
Secrets we yell at the same time
Are realer than this baseline
Take take on the one and the two
and if there's three for me i'll call it ours
and I can see you all from a mountain away

You and us make it reverse
You and us make it reverse
You and us make it reverse
We just have to pause and rehearse
You and us make it reverse
You and us make it reverse

You and us make it reverse
We just have to pause and rehearse
You and us make it reverse
You and us make it reverse

I can see you all from a mountain away
Pretended the only thing that I am is gay
And I can see you all from a mountain away
I had you convinced I was only yesterday

You and us make it reverse
You and us make it reverse
You and us make it reverse
We just have to pause and rehearse
You and us make it reverse
You and us make it reverse
