Am I a creep  
Or am I just falling in love  
With you again

Cause your eyes tell me  
That it's so far from over  
And I just can't sleep  
Thinking of everything right with us  
When only one thing that was pulling us apart

So close but then  
We were always so far apart  
What's on your mind?

Cause my heart tells me  
That we should be this close forever  
But my mind can't read  
Everything that's going on  
Going on inside your head  
I don't wanna walk away  
Cause I've messed up love before  
I'm sorry...

Am I a creep  
Or am I just falling in love  
With you again

Cause your eyes tell me  
That it's so far from over  
And I just can't sleep  
Thinking of everything right with us  
When only one thing that was pulling us apart
