The introduction, format format

("I have a valid message, stand by to authenticate")

Robotic contract is my verbal attack

Verbal abstract, flexible choice, operation flexible voice

Orchestrated one, detonator son

Sci-fi numbers, the megabyte is a ton

Super Thelonious colossal apostle, organic feedback

Chart system, can scientists read that?

Fertilized growth or breed back clones for zones

Space 8000 circumference, a billion measure

The Earth caresser

Space 8000 circumference ability and measure

The Earth caresser

Space 8000! ... Space 8000!

("Again a man from the future attacks!")

Space 8000! ("Again a man from the future attacks!")

Space 8000! ("Again a man from the future attacks!")

("T minus 15, 14, 13..")

My forces of energy is hexagonal

Diagonal, outer lining the inner term from chemists

Redefine the vocab, go and do the research

A lot of rewinding devastation source

We speed ahead of light more, see elevations like

Porsche

Gas electric beyond the oil lamp like a torch

Atmosphere four, through the corridor

That's right it splintered, parallel Western the seashore

Goretex extradition you ready for position

Space 8000! ("Again a man from the future attacks!")

Space 8000!

With heavy symmetrical industrial and various
impetuous construction
With adventurous introduction
Ears absorb the mechanisms like suction
E-force miles away, detour styles away
Cosmic energy, four million chromosomes on eBay
Ships on galaxies cruise the hemisphere on space
delay
Brains record and play, elevation existence
Above sealevel, fibers and metal
Way above E-level
The underground right now's on C-level
Space 8000 circumfrence
Space 8000 circumfrence
Ability and measure, the Earth caresser

Space 8000!

Space 8000! ("Again a man from the future attacks!")
Space 8000! ("Again a man from the future attacks!")
Space 8000! ("Again a man from the future attacks!")

"Look at all that Jennifer, WHOAH~!
My missiles are headed for their targets"
"David this is neat but, I gotta get to my aerobics class"
"What? Awww nooo!"
"I have to! Can't we just stop for a while and play it
later?"
"Together?"
"Huh? Oh, sure. I'll walk you out"
"Thanks"
"Let me just turn this off"
