I see a box fan, in the corner.  
Dispersing cool air throughout the room.  
3 levels of speed, to blow me the air I need.  
High, Medium, Low, Off or unplugged, they're both the same.

Oh box fan, so square like, you really cool me down,  
cool me down,  
You won't back down (wont back down)

Dust has collected, the air infected  
But it cools me down, and it won't back down  
Tah dadada dadada (wont back down)

Oh box fan, so square like, you really cool me down,  
cool me down,  
You won't back down (wont back down)

Spin, spin around, spin on the ground  
Never back down, it won't back down  
Pulling air in and shooting it out  
Now much cooler than before

Oh box fan, so square like, you really cool me down,  
cool me down,  
You won't back down (wont back down)
