Meet me by the tail lights  
Meet me here by moonlight  
Meet me by the river bed  
And we'll dance

Meet me where the sky bleeds  
Meet me by the needle priest  
Meet me by the window  
And we'll dance  
And we'll dance

We will dance to the music of this motorway  
We will dance to the drums of the street cabaret  
I don't care if all of our steps come out wrong  
'Cause you see we've been here all along

Meet me where the silk tears  
Meet me in your double dares  
Meet me as the bell tolls  
And we'll dance

Meet my by the ruined tower  
Meet me in your final hour  
Meet me as the sun goes down  
And we'll dance  
And we'll dance

We will dance to the music of this motorway  
We will dance to the drums of the street cabaret  
I don't care if all of our steps come out wrong  
'Cause you see we've been here all along  
We will dance  
We will dance  
We will dance
