Wake up from your slumbers deep  
In your house a monster does creep  
>From the darkest corners of your mind  
The monster is there for you to find  
Fear the monster...the monster is fear  
Who is it brings the monster here  
Life is a wild and scary thing  
Who knows what tomorrow will bring  
The beginning of a brand new life  
Or the end of your toil and strife  
Fear the monster...the monster is fear  
Who is it brings the monster here  
Can you taste the fear in the air  
When the monster comes and no one cares  
There's nothing here for you to fear  
Except the monster in your mirror  
Fear the monster...the monster is fear  
Who is it brings the monster here  
Life is a wild a scary thing  
Who knows what tomorrow brings  
The beginning of a brand new life  
Or the end of your toil and strife  
Fear the monster...the monster is fear  
Who is it brings the mosnster here  
Fear the monster...the monster is fear  
Who is it brings the monster here
