No risk, no fun  
I'm here, you're gone  
I'm cool, you're hot  
I love you not  
Don't say a word  
Unless you're heard  
I know I hate to see you rude

I think I'll let you down  
You should have let me go  
I think I'll make you leave  
'Cause you have lost control

You've pushed the line too far  
Bye-bye  
Turn over, there's no need to try  
You waste your time  
You're absolutely useless, baby

I think I'll let you down  
You should have let me go  
I think I'll make you leave  
'Cause you have lost control
