Dance for me my pretty girls
Let me see your bodies twirl
Raised above the ground so high
Like angels in the sky
Twist and turn to the manic sound
The rhythm of the heartbeat pound

Come on get into the swing
Everybody's gallows dancing

Feel the air beneath you feet
Drop down to the sudden beat
Lick your lips and toss your hair
Swing out through the air
Then with a kick spin around
Till you're high above the ground

Next time you're just hanging around
Move your body to the gallows pound
Shake your arms and kick your feet
Twist your body to the frantic beat
Dancing madly in the air
High above all earthly cares
