Lately, tuning in and out  
Walled in, gardens meant for privacy.  
Will I find a reason?  
I got a sight of universe  
Blame it on tomorrow  
Today will not end

Give me the time to see  
Time to hear the stars from heaven falling  
There's no smoke without a fire.  
Nothing will deter me  
There's nothing else to win or lose

Higher -- lower.  
For all I know this could be rending  
Time's an everlasting path  
We'll be ever lost without it,  
There's no way to cease the day  
If there's no one here to guide us,  
Let down your life  
Time to be free...

Will I find a reason  
Blame it on tomorrow  
Let there be something...

Give me the time to see  
Time to hear the stars from Heaven falling  
There's no smoke without a fire.  
Bring down to Earth  
Nothing will deter me  
There's nothing else to win or lose
