(Whispered)

Everyone else speaks in a drone
Round and round into the unknown
Afternoon sun filters out through smoke
The hum of factories quietly revoked

Touch of elation,
Panicked inside
Praying for silence, our lives
All in vain
Fallen out of love
Haunted, will always run

(Whispered)

Wonderful shatterproof metal walls
In timeless rapture withstand it all
Lifeless engines in the summer towns
On empty vistas where the quiet abounds

Seasons change us
This moment envisions eternity
I see slowly the shadows belong to me

Feel my emotions, believe me
It's just like a summer breeze

Sorrow changed us
This moment envisions eternity

Losing all senses
What did we become?
Someone grew stronger,
While some other passed
This is what remains:
Ashes and dreams of better days
Ashes and dreams of better days

Seasons change us
This moment envisions eternity
I see slowly the shadows belong to me

Feel my emotions, believe me

It's just like a summer breeze

Sorrow changed us

This moment envisions eternity
