[Music: Fabian, Robert Alexander - Lyrics: Alexander]
In the night... when the stars sing litany of horror
I raise the chalice... full of blood to the dark moon that
announces the death
In the dismal smiles... by the rotten mouth, painted
eyes like a black pitch
A shout rises from beyond... from beyond "the death is
near... the death has arrived"
The singer with its tormented voice sings hymns of
pain... pain...
The mad painter and its brush paints walls and
windows black
Flowers fade... as she'd pass... when the bells over the
ancient church ring midnight..
Strange figures rise from the fog...
Like a funeral party... the children plays with old buried
skulls...
The clown that never smiles kisses the woman with two
heads
