Oh Celestine you keep the candle burning
Oh Celestine so tiny dressed in blue
It's there to see
It's meant to be
You said to me
Oh Celestine

When I came to you
My mind was going nowhere
Within my dreams until you
Breathed life back into me

Oh Celestine the brightest star is your star
Oh Celestine you're shining down upon me
I must have faith
I must believe
You said to me

You gave me the key
New beginnings call to me
And take me where I'm meant
To sing my way across the sea

Oh Celestine you keep my fire burning
Oh Celestine my guiding light forever
It's there to see
It's meant to be
You said to me

Oh Celestine the brightest star is your star
Oh Celestine you're shining down upon me
I must have faith
I must believe
You said to me
Celestine
