"No beginning no end"

There must have been a time when you weren't on my
mind
The days before I knew your face
There must have been a night when I would miss your
light
Beside me in that lonely space

There's no beginning and no end
The colours and the faces blend
Rain and the sunshine send, no beginning and no end
People and places blend, no beginning and no end

There must have been a day before you came my way
I saw the space you were to fill
I just can't find the change, the things love rearranged
I love you now, I always will

There's no beginning and no end
The music and the pictures blend
Echoes and voices said, no beginning and no end
Good and the sad times led, no beginning and no end

And as the sun will rise
And so the sun will set again
So we will turn and then
There's no beginning and no end

There's no beginning and no end
The colours and the faces blend

Rain and the sunshine send, no beginning and no end
People and places blend, no beginning and no end
Echoes and voices said, no beginning and no end
Good and the sad times led, no beginning and no end

No beginning, no end ...
