Part 1

You, winter and spring
Deepest emotion everything
You fill my empty life
Take my hand, hold me close
The storm is long, you

You, dreaming of me
One voice together
Eyes that see
You, crying in the night
Took my love, kept me warm
Till daybreak came, you

How my heart needs you
You, you

Part 2

I walk in twilight
A tightrope stretches out in front of me
A skyline, a strange distortion of everything I see
You took my hand and left me reeling

If I talk to myself, I'm talking to you
You hold me in the balance of your love that's true
It's you
It's you
I need only you

You should have kept me
Words cannot express the way I feel
The void around me
An empty space that only you can fill

You took my mind and gave me healing
If I talk to myself I'm thinking of you
From the corners of their eyes, they're watching me too
It's you
It's you

I need only you

I feel it won't be long
Until you realise you were wrong
You will feel the need for me

I wake to find us gone
From where we used to be together, loving
I wake to find us gone
From where we used to be together, laughing

A part of me I left with you
Reflects in all I do, I'm crying
A part of me I left with you
Reflects in all I do, I'm crying

Crying, over you

(Instrumental)

I searched to find some truth within this world
That lay before these shadows
I searched to find some truth within this world
That lay before these shadows

A part of me I left with you
Reflects in all I do, I'm crying
A part of me I left with you
Reflects in all I do, I'm crying

Crying, over you
