Vanished in the merciless night sky
In nothingness I go insane
Like a wizard, who begins casting his spell
I open my eyes and swallow that dark

[Chorus:]

My eyes will see instead of your blind eyes
My soul will feel instead of your dead soul
The darkness for you is the only one savior
You'll never forget my dark visions

Hear the cries of the graveless children
They pray for somebody to save their souls
Mother of misery, you know that I can do it
I keep you children now, I swallow that dark

[Chorus]

[Lead: Staffa]

Listen to the silence of my dishonest lips
Feel the power of hatred, look into my unreal world

I'm the new beginning
The end of the past religion
I'm the second messiah
Lord of the dreams and confusion

My soul is like an empty room
I cannot see without your eyes

Vanished in the merciless night sky
In nothingness I go insane
Like a wizard, who begins casting his spell
I open my eyes and swallow that dark

[Chorus]
