Don't say the good times are over,
'Cos every second is a state of mind,
Don't say the good times are over,
Don't let the world pass you by.

You could follow fashions,
You live for your passions,
Without cause to die for,
What could you hope for?
Or have you forgotten,
The spirits that beckoned you on?
Give and move on.

Don't think the good times are over
Though you can say what you want to say
Don't think the good times are over
If you don't have to walk away.

I believe you will love again.

Don't think the good times are over,
'Cos every fool must learn to cry,
Don't think the good times are over,
Don't let the world pass you by,
Pass you by.
